

---

\*A special thanks to: \*Just Scratch that' \*Anton Richter \*Alexandre du Creux \*And of course Redcoon ===== MSNTicker Supported RSS Feeds:

===== A list of supported RSS feeds is available on the main MSNTicker website.

=====

Using this application requires that MSN to be installed on your computer. You can find out more about it and how to install it on Microsoft's homepage. This application is under development, there will be changes over time and new features will be added. \*If you want to contribute a feature to the MSNTicker application please head over to and let me know. \*Feel free to contact me if you have any questions regarding this application. \*Emanuel =====

INSTALLATION ===== If you have downloaded the zip file, it contains the MSN Messenger installer and the MSNTicker self extractor. You can either run the installer and then the self extractor, or install everything at once. You should now be able to double click the MSNTicker\_MSNTicker.exe file to run the application. If you don't have it installed, go ahead and install MSN Messenger and then you should be able to download it from the "What's a69d392a70

## MSNTicker With Full Keygen

The main advantage of MSNTicker is the fact that you can receive news/events in your MSN messenger and on your desktop. You can receive RSS feeds via Yahoo! messenger, MSN messenger, e-mail and many more. Using 'What I'm Listening To' feature, you can choose which feed you would like to receive in MSN or Desktop. All feeds that are found in MSNTicker are available in the "What I'm Listening To" tab (you can check this tab in the MSNTicker window). You can monitor RSS feeds in MSN with any of the following categories: - by the tag - by the title - most viewed - most shared - most recent MSNTicker Features: - More RSS feeds in MSN messenger and on desktop - with the option to check my location - view recently created RSS feeds (if you are logged in as the owner) - search and filter RSS feeds - support of Yahoo! messenger - many more! RSS reader Newsboo is an RSS reader for the Microsoft Windows platform. Newsboo is an RSS reader for the Microsoft Windows platform that enables you to read RSS feeds in your browser, MSN messenger, e-mail or on the desktop. All RSS feeds that are found in Newsboo are available in the "What I'm Listening To" tab (you can check this tab in the Newsboo window). You can monitor RSS feeds in Newsboo with any of the following categories: - by the tag - by the title - most viewed - most shared - most recent The RSS feeds that are found in Newsboo are available in the "What I'm Listening To" tab (you can check this tab in the Newsboo window). You can monitor RSS feeds in Newsboo with any of the following categories: - by the tag - by the title - most viewed - most shared - most recent Newsboo Features: - Support of RSS feeds (RSS version 1.0 and 2.0) - support of Ihmtl (if you are using IE 5.5 or higher) - support of Mozilla (if you are using Mozilla 1.7 or higher)

## What's New in the MSNTicker?

--- This program is useful for: - receiving RSS feeds in your MSN messenger - getting notifications on your desktop about your selected RSS feeds - easily access your RSS feeds by groups - hide unwanted RSS feeds from your MSN messenger - easily add RSS feeds from the web -... 7. LMSync & AdminStudio - Communications/Chat & Instant Messaging Tools... LMSync and AdminStudio are simple standalone utilities to add instant messaging to your Windows applications. LMSync allows you to send messages to multiple users, including a remote instant messenger account like MSN, AOL, AIM and ICQ. With LMSync you can also send AIM/MSN/ICQ messages in-line, from within your application. AdminStudio allows you to make remote administration calls to remote computers. You can even set windows timeout settings, delete users, remote registry changes and shutdown or restart remote computers. Both of these utilities are easy to use, and allow for easy extension with other utilities. Features include: - Automatically reconnect to any failed instant message connection. - Send messages in a conversation format. - Send messages directly from an application, including window builder, printer, database and editor. - Supports TCP/IP, UDP and socket connections. - Configurable options, including the ability to specify a standard instant message user name. - For Win32 systems, adjustable timeout settings for remote shell connections.... 8. MusicBox for Windows

---

Media Center - Multimedia & Design/Rippers & Converters... MusicBox for Windows Media Center is an easy-to-use application for Windows Media Center (WMC) that allows you to capture from your favorite broadcast music sources and quickly convert them into ASX or WMV files. You can now browse or view your recorded music by artist, album, playlist, and similar items. MusicBox for Windows Media Center is a must-have application for users who like to record TV shows and listen to music while watching TV. It also has handy features like drag & drop, copy & paste, music playlist/radio effects, auto volume adjustment, and can browse almost any music library in the computer. Built-in MusicBox provides the best way to capture the audio from your favorite music sources such as Tivo, ATV, VCR, satellite TV, cable box, and more.... Welcome to the ShareMe. Shareme is a dedicated internet portal bringing users the latest
