Monstrum is an unscripted, short, horror, survival game about perseverance, resilience, and picking your battles. A grimy cargo vessel sinks during a storm in the deep ocean. Sinking, they release the monsters of the deep into the ship and the crew is left to die. Monstrum is a free game, but for the first 3 days we are offering a limited time, exclusive bonus game. With each new "monster" released, players have a chance to win an exclusive Monstrum pin, and the only way to do this is by sharing it on social media. Simply share the promo code in the app itself, or hit the share buttons on one of your favourite social media platform. Have the Monstrum App on your phone and get the pins easy-peasy! A: I found out by sheer chance how to change your user name, so I will add this as answer: Launch the Monstrum app, then tap Settings. Find the "User name" field and change the value. The user name cannot be changed by tapping the "i" icon to the right of the user name field. A: If you are on iOS, delete Monstrum from your device, go back into the app, and re-install it. It can't hurt anything, and you'll save a couple seconds of time. În România, iar la Locomotiva (la Românii la Rovinari) e un fel de Darmstadt 98. To create a new sample simply drag and drop the animation template and create new keyframes. To create vertex and texture streams simply drag and drop custom shader over keyframes.
