The LOD mesh for this region has been enhanced to bring the default terrain mesh up to FSX: Steam Edition standards. This pack includes enhanced LOD 2 / 10m mesh, encompassing the US States: Colorado Idaho Montana Utah Wyoming. Description This add-on will help improve the default FSX: Steam Edition terrain mesh and the as built landscape profile. This add-on has been designed to compliment the 3rd party FSX: Steam Edition manual, which provides mapping and navigation information for the LOD 1 & LOD 2 meshes available as well as directions for the free to download commercial FSX: Steam Edition Topographical maps. Toposim US Mountain West for FSX: Steam Edition provides LOD 12 / 10m multi-LOD terrain mesh for this topographically varied region of the United States. ENHANCED LOD 2 / 10m mesh covers the US States: Colorado Idaho Montana Utah Wyoming Incorporating the eastern side of the Rocky Mountains. Toposim US Mountain West for FSX: Steam Edition increases the accuracy of your default FSX: Steam Edition air and ground scenery as well as offering a marked improvement in the visual appearance of the landscape profile. PS With the 3rd party FSX: Steam Edition and Topographical maps you can benefit from a complete reference for mapping and navigation in this region. PS The 3rd party FSX: Steam Edition manual not only covers mapping and navigation for the LOD 1 & LOD 2 meshes available as well as directions for the free to download commercial FSX: Steam Edition Topographical maps but also includes a section on mountain rivers and canyons. Adding this add-on to your custom scenery will significantly improve the accuracy of your scenery. Applying the default FSX: Steam Edition air and ground LOD 1 mesh and then applying Toposim US Mountain West for FSX: Steam Edition will give you this. Terrain mesh for the following US States: Colorado Idaho Montana Utah Wyoming Please note this pack corrects the default terrain mesh and does not include any textures. About The Game: The LOD meshes for this region have been enhanced to bring the default terrain mesh up to FSX: Steam Edition standards. This pack includes the LOD 2 / 10m mesh which covers the US

What's new:

2014 Limited Edition. Cd format on Nicotine Records and only 5000 copies made Case included and in original shrinkwrap. 2 tickets for the Maldivian House of Nightmares and a mug decorated with a House of Nightmares artwork. When we make images for each of our projects, we really have fun and take great pleasure in what we create. It feels like fun and winning can go hand in hand and makes a deadline doubly fun. Today we are proud to release Descendent I - House of Nightmares 2014, the debut for the House of Nightmares, a new project launched by renowned photographer, Farshid Pouyan. House of Nightmares is not only a series but also an album, an ode to childhood that, through images, transports you to a special time in life where all the dreams you didn't dare to dream become a reality, still fresh in your mind. Our first release, "Descending I", fuses retro styles with less colorful night visuals while the "Descending II" will follow up, including many images as "Metamorphosis". Music is by DJ Mag! "I was always a very artistic child. I drew in all colours for many years and with the discovery of analogue photography, my hobby became a passion. My initial ideas started with backlit, backlit photos where the effect of light played along with stories and faces and, for me, this was very interesting and new but not so rare or difficult to make. Then, with digital cameras, I started to experiment with different light sources to have more control of the light and my palette of colours became bigger. Of course all this was in the moment in which I started travelling in my car, inspired by talk shows, documentaries or in my imagination. Photographing for me was not only about objects, but also about human beings. For me, the true magic of photography is that we can capture moments that are gone. The happy memories, the tears, the smiles, the laughter and the pain. I am a fan of the stories that tell more than a single image. Emotions. This is what I do." Farshid Pouyan About Descendent I - House of Nightmares 2014 Even if "Descending I - House of Nightmares 2014" is a collection of 365 photos, each one is totally different as you travel back in time with the House of Nightmares, a magical land where all the nightmares come true and you can find
