The game's story is the result of mixing a number of previous games with several new elements. It is a story of two kingdoms, Elden and Graythorn, and how they came to be. Although our main protagonist is our ruler Tarnished, the world is actually his son Orias who is destined to become an Elden Lord. A large-scale story involving two kingdoms is pretty much in line with a fantasy RPG, so we have a story where the main protagonist is our ruler. The whole plot twists and turns at an impossibly fast pace. We are constantly bombarded by mysteries and schemes of enemies, and where to respond is the question on our minds as we progress through the story. Through battles with the Graythorn army and your own army, the story evolves as you go along. In order to decide what to do, you will have to put your own unique spin on it while taking in the current state of the story. By utilizing the strategic character-design system, you can make your own story for yourself by deciding your own ending. Comments ELDEN RING game: The game is fantasy RPG made by developers Shiro Games. Within this game, the setting world is divided into two opposing nations. Within the hallowed halls of the Academy of Science, there exists an ancient fruit that has long ago been lost to time: the Ever-grows Apple. Its power has provided untold disaster to the mortals of Enrichalucia and the great Elden Ring. After all hope was lost, a holy relic known as the Mask of Ederal saved one family. The Mask of Ederal is an amuletted artifact that takes its power from the world's fruit of life. Choose one of three different people who appear to have a connection to the Mask of Ederal and lead their family through the ins and outs of the academy. • Faces Three people appear at the beginning of Chapter 1: A budding girl scientist, Emon, an "impressionable" younger sister, and a wise old Grandfather. A few moments after you are played, one family member will be playable. • Draft Friend: Everyone Can Play Selecting the Draft Friend will cause everyone in your life to appear in the game. Your Draft Friend will be able to comment on your actions and be an optional NPC to interact with. The found journal data will provide information about the person who appears as your Draft Friend in each chapter. • Variety of Missions At any time during the game, you can use items to start an adventuring adventure. An adventure will last a certain amount of time and there will always be an opportunity to catch up later with the current mission. Those who are good in adventure will find new things.
